

4.4. BIOWIN DAY 2016, Louvain-la-Neuve, December 8th 2016

This networking event is the only one gathering all the stakeholders active in the fields of health biotechnology and medical technologies in the region (450 participants in 2014). The 6th edition will be held on Thursday, December 8th 2016 at Aula Magna, in Louvain-la-Neuve.

3 very good reasons to attend this event

- Targeted networking activities with companies, research centers, universities and organizations
- Fully integrated program around non-technological innovation like Behavioral Sciences, Business Model and the reinvention of Organizations
- Celebration of BioWin's 10th anniversary!

Features you might be particularly interested in

- International B2B meetings
- Pitching sessions to find out about new technologies or investment opportunities
- A HR Corner to design the future of your company

ALREADY 139 PARTICIPANTS*

"**Science For Business – BioWin Day**" is the international networking event that BioWin - the Health Cluster of Wallonia (Belgium) – organizes once every 2 years. This event is the only one that gathers all stakeholders active in the health biotechnologies and medical technologies sector in Wallonia.

BioWin Day is the opportunity for industrial and academic players (companies, research centers, organizations and universities) to **share their knowledge and expertise** concerning scientific and/or business-oriented issues but also to **meet potential partners**. This year, **450 visitors are expected!**

For its 6th edition, BioWin Day focuses on several new activities around **co-creativity and co-development processes to generate new insights through techniques of disruptive innovation:**

- **Get inspired** by our conferences
- **Make new connections** during networking moments and B2B meetings
- **Raise your visibility** as exhibitor, sponsor or presenting company
- **Think global** and meet our international partners and experts
- **Discover Wallonia's** technological value chains and stakeholders
- **Meet HR professionals** and design your future
